INTRODUCING ULED TV For the First Time in India

July, 2020

Ultra
Switch on Happiness!

In India, TV viewing is a family affair – a time for togetherness, a time for chit-chat, and a time for sharing a good laugh. And if the television is a Lloyd ULED TV, there can be no better way to switch on happiness! Designed to bring together 20 different patented technologies around the 4 key areas of Wide Colour Gamut, Localised Dimming, 4K Resolution and Smooth Motion Rate, a Lloyd ULED TV has a wide palette and is capable of reproducing a really broad array of colours for images that are brighter and superbly detailed.

Engineered with oodles of style and lots of innovation, it completely redefines your TV viewing experience. So go ahead, bring home a Lloyd.

khayal rakhenge, khush rakhenge!

ULED TV

ULED Defined.
Technology Redefined.

Ultra Amazing Viewing Experience

Ultra Convenient Entertainment

UltraQ OS, One Touch Access, Application Store, Dual Band Wireless Connectivity, Ultra Clear Sound

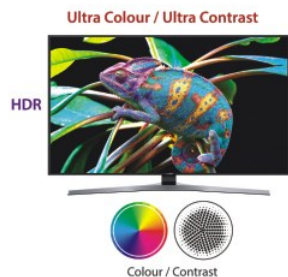

Ultra Stylish Design

Ultra Slim, Pure Metal Design, Super Thin Bezel

HDR1 Ultra Definition for HDR viewing

Lloyd ULED TV supports High-Definition Resolution, expanding the TV's contrast ratio and colour palette. It also makes visible, the previously hidden areas of dark shadows and sunlight, in complete clarity and detail, to offer a more realistic, natural image than ordinary TVs. Now, you can watch HDR movies or shows streamed by online VOD applications, or delivered from HDR compatible source components such as Ultra HD 4K Blu-ray player; or play HDR games through PS4 or Xbox. So go ahead, and enjoy every wonderful moment offered by HDR technology in Ultra Definition.

Ultra Sense Dimming for better contrast ratio

Ultra Sense Dimming in a Lloyd ULED TV is a form of local dimming where the LED panel is divided into many different zones, each of which can be dimmed and brightened independently of the others to help achieve an enhanced contrast ratio.

Thousands of local dimming zones enable finer contrast control

Ultra Smooth Motion for smoother flow and lesser blur

Lloyd's ULED TV's Ultra Smooth Motion adopts Motion Estimate, Motion Compensation, and Black Image Insertion technologies to enhance clarity in fast moving images. The result is a perfectly seamless flow, less blur, and reduced trail in fast moving images. So, whatever you watch, now enjoy smooth and clear picture with Lloyd ULED TV.

Ultra Peak Brightness

Creating a brighter white and a darker black, Lloyd ULED TV's Ultra Peak Brightness adds more contrast to the image.

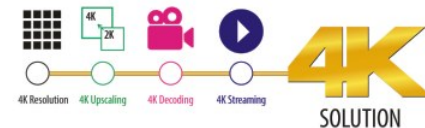

Ultra Peak Brightness brings out brighter white and darker black

Ultra Display Solution

UHD Resolution refers to 3840 pixels x 2160 pixels bifurcation of the LED screen, which is around 4 times higher than full HD TVs; and results in an ultra-sharp picture quality.

Ultra Decoding

This technology uses highly optimized video decompression engine, which is well suited for high resolution content.

Ultra 4K Upscaler

A UHD Upscaler upgrades FHD signal to near-4K quality to deliver powerful details, allowing viewers to enjoy 4K picture quality even with FHD signal. But instead of simply amplifying every pixel by 4 times, Ultra 4K Upscaler computes the colour of adjacent pixels as well, to compensate accordingly, for a more vivid image.

4 times more pixels give a more vivid image

Ultra 4K Streaming

Lloyd ULED TV's Ultra 4K Streaming allows streaming of UHD content over the latest VOD applications and browsers for content-rich entertainment.

Ultra Precise Image

Lloyd ULED TV uses noise reduction technology to automatically analyze the input signal and remove any detected noise, to offer a cleaner image and a better viewing experience.

Before

After

Ultra Depth Enhancer

Lloyd ULED TV's Ultra Depth-Enhancer technology can analyze an image and adjust its dynamic contrast automatically, adding layers of contrast to the background, midground, and foreground to give even further depth to the image.

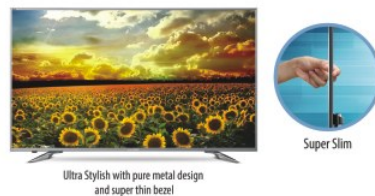

Ultra Clear Sound

Enjoy Lloyd ULED TV's crystal clear sound that pulls you into the heart of the action. Lloyd ULED TV uses a combination of technologies for a clean and clear audio. It helps the sound live up to the TV picture, delivering deep, rich, enthralling audio. And it does so, without the need of external speakers or sound bars!

METAL FINISH Ultra Stylish Design

Lloyd ULED TV is ultra slim with a super thin bezel. And its pure metal design makes it nothing short of a piece of art.

Ultra Stylish with pure metal design and super thin bezel

SMART TV UltraQ OS

Our one-dimensional operating system UltraQ, with one touch access, plenty of applications, faster boot and app launch, and a customisable launcher, takes you to a smarter world. With an easy-to-use interface, you are never more than 3 steps away from completing any required action!

With UltraQ OS, Application Store, Dual Band Wireless Connectivity and One Touch Access

One Touch Access

With designated buttons for all your favourite streaming applications on the remote, it only takes a touch to stream your desired content from VOD application.

Application Store

Whether you love movies, music, or sports, with 200+ global applications & 60+ regional applications, you can easily get your favourite content from a plethora of online resources.

Dual Band Wireless Connectivity

With a faster transmission speed, Lloyd ULED TV's Dual Band Wireless Connectivity lets you connect with up-to-date and ultra clear content on the internet in no time!

- Wireless Remote Control
- Ergonomic Design, Comfortable Hand Feel
- One Touch Smart Access
- 4 Hot Key Buttons

COMPATIBLE MODELS

- L43F2K00S
- GL32H0B0ZS

SERVICE NETWORK

For us, customer orientation is the most important thing. And so is customer delight. Our wide array of services are created keeping these aspects in mind. Besides, each offering is not just a service but much more than that – a promise to put a smile on your face.

On-the-Spot Solution

Our in-house call centre works 8 am - 8 pm (Monday to Saturday) to ensure prompt action on your requests and feedbacks given through the Helpline numbers. This also removes any third party involvement in the process and gives you direct access to our team of experts and professionals.

Nationwide Network

Our network covers almost every city of the country. You can also choose a service centre close to your place, by simply logging on to our website www.mylloyd.com.

Easy Registration and Tracking

Our online registration and tracking facility makes it amazingly simple for you to register your complaints and then track them easily on www.mylloyd.com as well as through MyLloyd App.

In-house Service Engineers

We have approximately 450 in-house service engineers who have expertise in all our products, which helps us in decreasing our overall response time and adds efficiency to our services.

Hassle-free Installation

Just to make sure that your Lloyd TV delivers flawless performance for a very long time, we recommend that you get it installed only by Authorised Lloyd Service Professionals.

Dedicated MyLloyd Mobile App

Now register service requests in less than 10 seconds and enjoy the convenience of various other features with our dedicated MyLloyd App.
